ARMI DELLE  
**FAMIGLIE SPAGNOLE**

PRESENTI IN PIEMONTE

DICEMBRE 2012

### Premessa

Non poche sono le famiglie spagnole o di origine spagnola in vario modo presenti nella storia subalpina e che quindi compaiono a pieno titolo nel Blasonario.

La ricerca delle loro armi non è stata agevole e gli stemmi di alcune famiglie non sono ancora stati identificati.

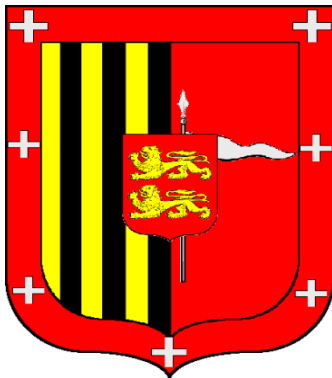

Comunque per facilitare la consultazione del materiale da me reperito, che nel Blasonario è diffuso in tutte le pagine, ho raccolto in questo opuscolo nomi e stemmi di questi lignaggi iberici.

Per quanto possibile ho esteso il panorama a tutte le linee di queste famiglie, estremamente articolate, non limitandomi quindi ai soli rami presenti in area subalpina.

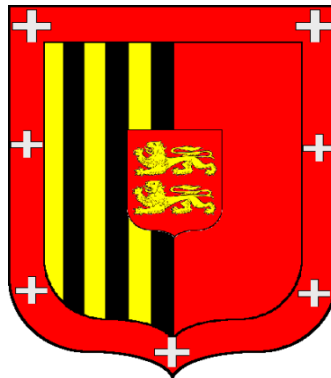

Per non appesantire il testo, non ho indicato da quale fonte è stata ricavata l'arma raffigurata. Rimando al Blasonario Subalpino per tutte le indicazioni in proposito:

Segnalo infine che nella mia ricerca un aiuto prezioso mi è stato dato da Raúl Maldonado Sánchez, appassionato studioso di araldica spagnola: lo ringrazio vivamente.
